Content 1

The elective programme gives you the opportunity to specialise. Elective credits form an essential part of the total credits you have to gain each year. A set number of credits have to be gained each year from the optional programme. You can do so by:

- choosing from an organised selection of educational activities (SEM);
- doing individual study activities (ISAs) which are added on the regular modules.

A study load of at least 28 hours per activity or multiple of it, i.e. 1 ecto or more, applies to all elective activities. You will need to write a small reflective report on your learning outcomes.

Learning objectives

**In this module you will learn:**

1. to look over the walls of your own professional field;
2. about all sorts of subjects that are broadly related to art and culture;
3. to gain new experiences;
4. to work on activities that are of particular interest to you and which link up with your practice.
