Course information

Content 1

During your studies, alongside the set core programme, you also follow an elective programme. The elective programme gives you the opportunity to differentiate and specialise. Elective credits form an essential part of the total credits you have to gain each year. A set number of credits have to be gained each year from the optional programme. You can do so by:

- choosing from an organised selection of educational activities (SEM);
- doing individual study activities (ISAs) which you add to the regular modules.

A study load of at least 28 hours per activity or multiple of it, i.e. 1 ect or more, applies to all elective activities.

Learning objectives

In this module you will learn:

1. to look over the walls of your own professional field;
2. about all sorts of subjects that are broadly related to art and culture;
3. to gain new experiences;
4. to work on activities that are of particular interest to you and which link up with your practice.
